

INTERNSHIP CONFIRMATION LETTER

Organization: Center for Robotics Systems and Unmanned Aerial Vehicle – Vietnam National Space Center

Address: 18 Hoang Quoc Viet, Nghia Do, Hanoi

Director: Assoc. Prof. Pham Van Bach Ngoc

Email: pybngoc@vnsc.org.vn

Phone number: +84 963 386 605

This is to confirm that student Nguyen Do Anh Dung, Class 12A3 Physics, HUS High School for Gifted Students, has completed a summer internship at Center for Robotics Systems and Unmanned Aerial Vehicle – Vietnam National Space Center. Period: from June 1, 2026 to September 30, 2026, with the following internship content:

- Learned about and gained hands-on experience with the CNC machining process, including manual practice of basic operations on the Okuma MB46VA milling machine at the machining workshop of the Vietnam National Space Center – Hoa Lac Hi-Tech Park.
- Participated in the design and construction of a 3D CAD model of a fixed-wing VTOL unmanned aerial vehicle, using CATIA and SolidWorks software.
- Studied and gained exposure to research problems in simulation, aerodynamic analysis, and mechanical design optimization for unmanned aerial vehicles.

Following the internship period of student Nguyen Do Anh Dung, we would like to provide the following remarks:

1. Discipline and organizational conduct:

- Complied with the organization's internal regulations.
- Showed good discipline and punctuality.

2. Attitude and learning spirit:

- Demonstrated a proactive, progress-oriented spirit, actively discussing technical problems with researchers.
- Completed assigned tasks on schedule and reported fully.

3. Working capability:

- Able to apply fundamental knowledge of mechanics, physics, and skills to model design work using 3D CAD software.

Confirm by Vietnam National Space Center
